Incident Report - Case CASE-2026-004

Reporting officer: Forensic Unit 3
Date of report: 14 March 2026

Summary

At 09:41 on 14 March 2026 a workstation was seized from the premises under warrant. The device was powered on at the time of seizure and was isolated from the network before imaging. A photograph of the scene, the server access log covering the preceding 72 hours, and an extract of the associated transaction records were collected as separate exhibits.

Chain of custody

All four exhibits were registered on intake, fingerprinted with SHA-256, and assigned to the analyst on duty. No transfer took place before registration.
